10 STEPS YOU CAN TAKE TODAY

**Want to take charge of your health, wellness, and success?
Here are 10 steps that can move you closer to your goals – today.**

- Live each day to the fullest and treasure life's moments - because no one, including myself, knows how many days we get.
- Remember that what matters most are the people I love, and make sure I tell them how much they mean to me.
- Learn to love myself instead of needing outside validation from other people.
- Remember that there is no stigma or shame in walking out of a relationship that may not be working. It's better to separate and both be happy than stay together miserably.
- Uncover the layers and look at my real self and understand who I truly am - someone that deserves love not just from others but from myself most importantly.
- Trust the universe in whatever I do and wherever I go including not staying in a bad situation because of the fear of the unknown.
- Realize that small tokens of love are all around us, such as a friend buying me coffee, going out with someone for dinner and them paying the bill or even a stranger saying hello and striking up a conversation.
- Understand that my partner and I are unique individuals and in a relationship, we shouldn't change ourselves to feel loved and accepted.
- Remember the "Ubuntu" philosophy, where if one person hurts we all hurt - we must always respond to people with love and empathy.
- Follow my dreams no matter my age or circumstances and trust that I will find the path to get where I need to be.
