10 STEPS YOU CAN TAKE TODAY

**Want to take charge of your health, wellness, and success?
Here are 10 steps that can move you closer to your goals – today.**

- View fear as a motivator. Having the presence of fear makes and keeps us alive.
- Don't resist or bottle up my feelings. It's okay to be afraid, ashamed or vulnerable.
- Keep my thoughts rational and positive when I feel fear and anxiety.
- Find an outlet for Zen such as meditation or any form of spiritual nourishment.
Peace of mind is important to my well-being.
- Learn how to shift my thoughts without therapy. This will help me have a strong presence of mind when I feel scared.
- Stop doing the same thing and expecting a different outcome. Find ways to get out of situations when I feel stuck.
- Step out of my comfort zone. Whenever I get too comfortable, find something to do to keep my adrenaline rushing.
- Validate others feelings when they say they're afraid. Motivate them to face their fears rather than telling them to not be scared.
- Read Kristen's book, [The Art of Fear](#), to learn more about embracing fear to lead a successful life.
