# 10 STEPS YOU CAN TAKE TODAY

**Want to take charge of your health, wellness, and success?  
Here are 10 steps that can move you closer to your goals – today.**

- Decide how I want to structure my business. Determine if I want to set it up as an Inc., LLC or 501(c)(3).
- Consider setting up a 501(c)(3) aka a non-profit organization to make a massive social impact on my community.
- Carefully choose my board of members. Each member should have a specific qualification that benefits my business operations.
- Take a look at what I'm getting into in a business partnership. Set clear business procedures to protect both parties' interests.
- Evaluate how much time I put into building my business. It doesn't matter how much money I'm making, the real value is the time that's being put in.
- Be prepared to experience burnout. Handling a business is a tough job and sometimes making ends meet is quite the challenge. But if I'm doing what I love, everything will fall into place.
- Be socially conscious when running my business. See how my operations affect my community and find ways to improve it.
- Learn more about the philanthropic world before building a charity. Consider the costs involved to keep the ball rolling.
- Come up with income generating projects. Find donors who share my advocacy to help my charity fulfill its goals and help others.
- Follow my passion and don't be afraid to take risks. If I don't like where I am, find the courage to go after my dreams.
